Very Important:

- *Sessional evaluation tests are a non-formal formative assessment. It evaluates the degree of learning of the students, wherein stress is laid on potential learners. Moreover, it is an direct assessment of teachers to point out where he/she has lacked in transaction of concepts to the students and to re-visit that area so that students are benefited in letter and spirit.*
- *The evaluation is different from the earlier tests in that the students are assessed informally so that they are not stressed. Although it is a day to day process, but some period of time is required to be provided to the teachers to concentrate on it, away from their scheduled routine work.*
- *It is objective as against subjective.*
- *It is formative as against summative.*
